Dr. Stephany:

The Los Angeles County Education Association (LACEA) hereby makes a demand to bargain working conditions of its members under the current school dismissal / closure caused by the Covid-19 pandemic. Items to be bargained shall include, but are not limited to: provision of alternative instruction, provision of appropriate software and training for online instruction, reporting requirements, compensation and cleaning of school sites.

Given our current circumstance of engaging in appropriate social distancing, we would like to examine ways to conduct this bargaining via videoconference. Please reply with available dates, times and options for videoconferencing. LACEA would like to hold this bargaining session as soon as possible since we are already in the midst of working under the conditions mentioned above.

Sincerely,
